Logo Suggestions

Some suggestions before you hire Corfun, or any other design company, to do a logo for you:

- 1 You should determine your company's attitude, vision and goal. Your logo should reflect these elements.
- 2 Look for logos that you like and don't like and try to identify the elements of each.
- 3 Consider the type of logo you are looking for. Here are some definitions to help you decide. There are 3 basic kinds of logos:
 - Graphical - Abstract graphic combined with your company name
 - Logotype/Text - Font elements only (your company name), developed into a design.
 - Illustrated - Illustration that most likely expresses what your company does.

Simple logos will be \$300. More complex logos, particularly involving freehand illustration, will be more expensive. Let us know what you are looking for, and then we will be happy to give you an estimate on the cost!
